# Slave Binding State

version 0.1.4

Master | Slave (Meta <->Meta) (Discovery <-> Respond) (Command<->Response) version should always match  
For example, **msagent.PocketMasterDiscoveryRespond** <-> **slgent.PocketSlaveDiscoveryAgent** versions should match

Only **Unbounded** and **Bind Broken** should youse Discovery <-> Respond pair so we know what/when/how things could go wrong

# Install Process

version 0.1.3
